

QUALITY POLICY OF HOA SEN UNIVERSITY

(Promulgating according to Decision No. /QĐ-ĐHHS)

I. VISION

Hoa Sen University is a prestigious, international university of applied science that nurtures talents and creates good values for the economy, the society and the community.

II. MISSION

Hoa Sen University has a mission to provide learners with extensive knowledge, to train them to be creative and ready to accept challenges, to have the necessary professional experience to start a business, and the ability to succeed with their distinctiveness.

III. QUALITY POLICY

Hoa Sen University is committed to operate effectively and govern the quality assurance system with an iron hand. Beside that the University regularly review and improve all aspects of operations in order to continuously enhance quality to best meet the vision and mission of Hoa Sen University and stakeholders needs.

1. Quality perspective

- Training quality is the top key issue of Hoa Sen University. The University always take the motto of “experiential learning” as a guideline for training activities in order to affirm the University’s training quality as well as meet the needs of students and stakeholders;

- Developing a professional and internationalized educational environment to create favorable conditions for learners to maximize their own capacity and international integration;

- Training to meet output standards, regularly evaluating and renewing training programs, curriculums, and lectures applying active teaching methods to improve training quality;

- Focus on training lecturers and staff with sufficient qualifications, qualities and capabilities to meet the needs of high-quality human resources for the society;

- Ensure facilities and equipment for training, scientific research and community service; timely replenishment of modern and advanced equipment according to market trend;

- The University and its programs meet national and international standards of assessment and accreditation.

2. Basic principles of quality assurance activities

- Quality assurance is the responsibility of each individual and division in the University;

- Implementing HSU's mission on the basis of student-centered approach and taking training quality as the core, socio-economic efficiency as the goal, international integration trend as the guideline to approach;

- Strengthening the application of information technology in teaching - learning and management, towards approaching and adapting to the 4.0 era;

- Divisions and individuals carry out working activities on the principle of PDCA (Plan - Do - Check - Act). Each activity of the University will contribute to develop quality culture;

- Conducting quality self-assessment periodically on institutional level and program level according to national and international assessment and accreditation standards.
